News Release

NOVA Wins DISA System Administration Task Order

For Immediate Release

CHAMBERSBURG, PA – August 8, 2015 – NOVA Corporation, an award-winning information technology company owned by the Navajo Nation, has won another new task order with the Defense Information Systems Agency (DISA). The task order falls under the DISA IT Enterprise Support Service (DESS) IDIQ, and is NOVA's second task order win under the same IDIQ this quarter.

Under the task order, NOVA will be providing senior level UNIX/Linux System Administration and SharePoint Administration Subject Matter Expertise at the Defense Enterprise Computing Center in Mechanicsburg, Pennsylvania (DECC MECH). The work is set to start July 20th, 2015.

NOVA Corporation has been a vendor partner to DISA's Defense Enterprise Computing Center in Mechanicsburg (DECC MECH) since the early 2000s, and very recently received another task order to perform configuration management services there.

NOVA has been in business since 2004, as a federal, commercial and tribal IT services provider. NOVA is a subsidiary of Diné Development Corporation, and has corporate headquarters in Chambersburg, Pennsylvania; Columbia, Maryland; Albuquerque, New Mexico; and on the Navajo Nation reservation in Window Rock, Arizona.
