

# HEIGHT AND NON-BLOCKING RESTRICTIONS

## **LINEAR EXHIBITS**

**Back wall height limitation of all structures including logos is 8'.**

**NO HANGING SIGNS PERMITTED!**

Display materials should be arranged in such a manner so as not to obstruct sight lines of neighboring exhibitors. The maximum height of eight feet (8') is allowed only in the rear 5' of the booth space, with a four-foot (4') height restriction imposed on all materials in the remaining space forward to the aisle. (Note: When three or more Linear Booths are used in combination as single exhibit space, the four foot (4') height limitation is applied only to that portion of exhibit space which is within ten feet (10') of an adjoining booth.)

## **CORNER EXHIBITS**

A Corner Booth is a Linear Booth ("In-Line") exposed to aisles on two sides. All other guidelines for Linear Booths apply.

## **ISLAND EXHIBITS**

**Height limit of all structures INCLUDING signage is 20'. (20' from the floor to the top of the sign)**

An Island Booth is any size booth exposed to aisles on all four sides.

*Dimensions:* An Island Booth is typically 20'x20' or larger, although it may be configured differently.

*Use of Space:* The entire cubic content of the space may be used up the maximum allowable height.

The TRB Annual Meeting does not permit perimeter linear booths to be higher than 8'. End-cap booths are not permitted.
