

Independent Satellite Symposia *(2 Available)*

Surgical Oncology is experiencing an exciting evolution and the ways in which we treat cancer are changing. A symposium provides an exceptional opportunity for in-depth exploration of a topic, disease state, or the treatments of tomorrow that can be applied to today's surgical patients with solid tumor cancers. A very limited number of grant funded satellite symposia slots are available.

Wednesday, March 15: 6-7 pm

Friday, March 17: 6-7 pm

Exhibit Hall Theater Presentations *(2 of 3 Available)*

Present data and information or teach attendees how to use your innovative products and services in this convenient setting within the Exhibit Hall.

Thursday, March 16: 12:30-1:15 pm - **SOLD**

Thursday, March 16: 3:15-4 pm

Friday, March 17: 12:30-1:15 pm

Industry Forum Presentation *(1 of 2 Available)*

This is your opportunity to educate SSO attendees about how your products and service offerings will help them to practice more effectively and improve patient care and outcomes. Dedicated time has been set aside within the daily agenda to allow for attendees to participate in your presentation without missing any content offered in the core educational programming.

(2) Thursday, March 16: 6:45-7:45 am

Take advantage of these can't miss opportunities!
