About Exhibits

Reservation and Assignment of Exhibit Space

Exhibit space will be sold upon receipt of completed Contract (as defined above) for exhibit space with applicable deposit and acceptance of such application by AORN in writing. The Contract is the only means by which space may be reserved. Contracts received at Onsite Booth Sales at the previous year’s show are placed according to the AORN Priority Point system. All Contracts received after close of the previous year’s show will be date-stamped upon receipt, and exhibit space will be assigned based upon availability of requested space at the time of receipt of completed Contract, if such Contract is accepted by AORN. Exhibitor will receive copy of accepted contract and receipt for deposit funds for their records. The Priority Point System will expire upon show closing, Tuesday, March 27, 2018 at 2:00 PM. After the expiration of the Priority Point Systems, all remaining booths will be sold on a first-come, first-served basis.

Priority Points

AORN uses a priority point system to facilitate assignment of exhibit space from year to year. At onsite booth sales, exhibitors will select their preferred booth space for the next year’s Expo. Companies that do not select their booth space onsite will be allotted a booth based on space available at the time of receipt of the contract. Exhibitors with the most priority points (in descending order) are awarded the opportunity to select their booth space first. The priority points are assigned as follows:

- One point for each current year 100 square foot booth space
- One additional point for each year exhibited
- Additional points for current year sponsorship (see chart below)
- Five additional points if CE credit is offered in the exhibit booth for the current year
• Additional opportunities, as determined and communicated by AORN

Priority Point Rules

• AORN will provide point opportunities consistently for all exhibitors or potential exhibitors.
• In the event an exhibiting company merges with, is bought out by, or purchases another company, the parent company may assume the higher number of priority points with written consent from others companies.
• Priority points cannot be combined across companies.
• Exhibitor may forfeit priority points if they do not comply with the Contract and Rules & Regulations.
• Housing, support and in-booth education must be confirmed by February 19, 2018 to accrue points.

Exhibitor’s Years Exhibited points will be reduced by 50% after missing one year of exhibiting and will be completely forfeited after missing two consecutive years of exhibiting.
**Contracted Space**

AORN reserves the right to rearrange the exhibit floor plan for any reason. AORN may relocate exhibits at any time. If Exhibitor will be relocated by AORN, Exhibitor will be notified and Exhibitor will have one week to review the relocation, at which time they must either accept or reject AORN’s decision. If rejected, Exhibitor may suggest to AORN another agreeable location, acceptance of which is at AORN’s discretion, or Exhibitor may elect to cancel their booth space. Booth space that is cancelled or downsized due to relocation by AORN will be refunded in full, and the contract considered null.

**Corporate Booth Groupings**

Corporate booth groupings are companies within a corporate structure, with a minimum purchase of 3,600 square feet that have agreed upon neighboring booth properties. The space occupied by Corporate Booth Groupings must meet or exceed 3,600 square feet. The Corporate Booth Groups will receive an onsite booth selection appointment time for the company within the corporate structure with the highest priority point calculation for that individual company. The remaining related companies within the corporate structure may accompany the primary company at the onsite booth selection appointment time.

As a part of a Corporate Booth Grouping, the corporate entity has the option to purchase the aisle carpet between the corporate booth properties. Pricing is determined by intended use of the aisle area. Please contact Meghan Leahy, AORN Exposition Management at 703-654-6929 meghan.leahy@spargoinc.com for price details. Without exception, corporate groupings of any size cannot purchase any aisle space defined by AORN as a main aisle. This is usually defined by aisles that are 20’ wide or more and maintained by AORN.

Corporate groups will comply with the following guidelines:

- Corporate groups must submit all contracts and deposits before booth assignment will take place.
- A preferred layout of company names in designated booths must accompany the contracts and deposits.

**No Show Policy**

Any space not claimed and occupied or for which no special arrangements have been made, prior to the established time of 2:00 PM on Sunday, March 25, 2018 will be considered a “no show.” This space may be resold or reassigned by AORN without obligation on the part of AORN for a refund to the original renting Exhibitor.

**2019 Exhibit Space Reservation**

Initial assignment of booth space for AORN’s 2019 Surgical Conference & Expo in Nashville, Tennessee will take place onsite during the 2018 Expo in New Orleans. All companies who exhibit at the 2018 Expo will be given the opportunity to participate in booth assignment for the 2019 Expo. Booth assignment appointments will be provided based on AORN’s published priority point system, and those assignment times will be communicated in advance of the 2018 Expo.

**Installation and Dismantling of Exhibits**

Any exhibit material not uncrated and set up by that show year’s designated time, and for which arrangements to set up have not been made will automatically be set up by AORN’s official contractor at the Exhibitor’s expense and liability. All crates and containers should be ready for removal per the provided schedule, but Exhibitors may work in their booths past this time. No empty crates or cartons may be placed in the aisles after scheduled time. Any Exhibitor placing empty crates or cartons in the aisles after aisle carpet has been installed and cleaned will be charged for removal and cleaning. Designated freight-free aisles must be free of crates and exhibit materials at all times during move in and move out. Freight free aisles are necessary for emergency access and to expedite crate removal. All exhibits must remain intact until show close, and must be removed from the area by the end of the designated move-out time. Any exhibit material that is not dismantled and prepared for removal by such time will be
removed, on overtime rates, at the exhibitor’s expense and liability. The Exhibitor must surrender exhibit
space to AORN in the same condition as it was at the commencement of the occupation, ordinary wear
excepted. Dismantling your booth early will result in penalties up to including loss of priority point and
exhibiting privileges.

The Installation and Dismantle schedule will be include in the Exhibitor Service Manual, available in
12/2017. Please contact Meghan Leahy, AORN Exposition Management, at 703-654-6929 or
meghan.leahy@spargoinc.com with any questions.

draping will be applied to the exhibitor’s service bill.

**Carpet**

Carpet is mandatory for all booths. Exhibitors may use their own carpet or order it from Freeman (Official Contractor). Order forms can be found in the Exhibitor Service Manual.

**Demonstration Areas**

All booths must be constructed or arranged in such a manner as to be able to accommodate the viewing audience inside the booth this means demonstration areas may not be set on the aisle line of the exhibits. Aisles are not to be obstructed due to any activities within the booth. Speakers must be positioned facing the interior of the booth/demonstration area.

**Fire Safety Regulations**

Exhibitors are responsible for ensuring that their exhibit complies with the complete list of fire regulations included in the Exhibitor Service Manual. The following does not encompass all of the host city fire codes; however, it does provide basic rules governing exhibits during the AORN Expo.

1. All materials used in construction and decoration of an exhibit must be flame retardant. Fabrics must be certified as flame retardant or a sample must be available for testing. Materials that cannot be treated to meet the requirement may not be used.

2. All exits and exit aisles must be kept clear and unobstructed. No furniture, signs, chairs, or displays may protrude into aisles.

3. Designated “no freight” aisles must remain clear of crates and exhibit materials during move-in and move-out. These aisles are required for emergency access throughout the hall and to expedite freight and empty crate moving.

4. All fire hose racks, fire extinguishers, and emergency exits must be visible and accessible at all times. This includes fire protection equipment located within exhibits. Exits and exit signs may not be covered by drapes nor obscured from view by exhibit components.

**Hanging Signs**

Hanging signs will be allowed for all Island Booths. AORN has set a maximum hanging sign height limit of 25’ from exhibit hall floor to the top of the hanging sign. Be sure to review the floor plan and check placement of your booth carefully to be certain the ceiling areas will not impact your booth plans. Hanging signs are to remain within the confines of booth space and will not extend out past contracted square footage.

- Hanging signs cannot block show management signs (aisle, directional, etc.).
- AORN signs will not be moved to accommodate visibility of hanging signs.
- Hanging sign installation orders must be submitted directly to Freeman. All hanging signs will be hung by Freeman. (No outside third party or subcontractor party will be allowed to hang signs).
- Materials must be flame-retardant in accordance with the host city’s Fire Department regulations.
- In the Ernest N. Morial Convention Center, Halls I1 and J have very low ceilings and as a result there is limited rigging in those areas.

**Identification of Exhibit Space**

All exhibit booths will be identified with a booth number on the floor. Linear and perimeter booths will have an identification sign (7” x 44”) giving the Exhibitor’s name and booth number, which will be provided, upon request, from Freeman (form submission required; see Exhibitor Service Manual).
Island Booth Requirements
AORN considers any 20’x 20’ or larger free-form space configuration to be an island booth. Island exhibit spaces may occupy 100% of the rental space, but must adhere to the following rules:

- The design of the booth must allow accessibility from all four aisles.
- Equipment must be placed in such a manner that neither the viewer nor demonstrators are in the aisle.
- AORN has set a maximum height limit for all island booths of 25’. All towers, hanging signs, and displays will adhere to the 25’ height limit from the exhibit hall floor to the top of the hanging sign.
- Provide sufficient see-through areas so as not to block the view of the adjacent exhibits. AORN requires a 50% see-through effect front to back and side to side, on the portion of the booth from the floor up to a minimum of 8’ in height.
- Please refer also to Appendix A, found at the end of this document.
- Island exhibits are subject to show site review and, where necessary, modification will be made at the Exhibitor’s expense.
- Floor plans and elevation blueprints for island exhibits must be submitted through the online Exhibitor Resource Center for approval by February 19, 2018. If proposed plans are not submitted and/or the construction is determined to be in violation of regulations, AORN reserves the right to prohibit assembly of the booth, and is under no obligation to provide a refund or other restitution. Please contact Meghan Leahy, AORN Exposition Management, at 703-654-6929 or meghan.leahy@spargoinc.com with any questions.

It is the Exhibitor’s responsibility to make its agencies and/or contractors aware of all guidelines and deadline dates, and to forward service Manuals, forms, and promotional materials to third parties.

Exhibitor Appointed Contractors (EAC)
The Convention Industry Council defines an Exhibitor Appointed Contractor (EAC) as “any company other than the designated "official" contractor providing a service to an exhibitor”. These include installation and dismantle companies, display and design companies, photographers, florists, audio/visual companies, computer rental companies, security, etc. As a general rule of thumb, if the person is not an employee of your company (with the exception of manufacturer’s reps), and they will be working on your equipment, display or products, they are considered an EAC. Material handling is an exclusive service provided by the Official Contractor as appointed by show management.

Exhibitors and Exhibitor Appointed Contractors (EAC) must comply with the following guidelines:
1. An EAC shall have the right to provide services (excluding non-exclusive services) and to utilize qualified employees on the exhibit floor as requested by an exhibitor. Exhibitors must submit a Notification of Intent to Use Non-Official Contractor to AORN Exposition Management through the online Exhibitor Resource Center by February 19, 2018.
2. The EAC must carry public liability insurance for bodily injury and property damages in the minimum amount of $1,000,000 and Workers Compensation in accordance with local law. A Certificate of Liability Insurance must be submitted to AORN Exposition Management through the online Exhibitor Resource Center by February 19, 2018, verifying public liability insurance for bodily injury and property damage for the time period covering the Exhibition, including move-in exhibit hours, and move-out, and naming the AORN, SPARGO, Inc., The Freeman Companies and the Ernest N. Morial Convention enter as additional insured.
3. The EAC must abide by existing labor regulations or contracts and rules and Guidelines established by the exhibition facility and AORN. All services provided by an exhibitor-appointed contractor must be completed in a timely, professional manner and within the established times for move-in and move-out.
4. The EACs are required to have all licenses, permits or bonding required by federal, state and country or municipal governments, prior to commencing work, and shall provide AORN with evidence of compliance.
5. The exhibit floor, aisles, loading docks, service and storage areas will be under the control of the AORN’s designated official service contractor.
6. The EAC must possess and be prepared to present a true and valid order for service from an exhibitor to AORN Exposition Management to permit admittance to the exhibit floor.
7. An EAC should perform all services in a professional manner and not engage in solicitation of current or future business on the exhibit floor during move-in, exhibit hours, or move-out. Exhibitors are responsible for the conduct of the contractors they appoint.
8. An EAC will need to submit to show management at least 15 days prior to Exhibition move-in, names of all employees who will be working in the exhibit hall prior to the commencing work. These individuals must follow the rules of ingress and egress for the exhibit hall. The EAC must also submit the names, addresses and telephone numbers of key personnel to contact in the case of emergency, and designate a contact in the area local to the Exhibition to handle emergency situations during the period of the Exhibition.
9. EACs must confine operations within the exhibit area of the client exhibitor. Aisle and vacant areas of the exhibit hall may not be used as work areas or storage and dispatch areas.
10. It is the responsibility of the EAC to remove all tape installed from the floor and bulk trash from exhibit
hall (such as skids or crates) or the EAC will be billed accordingly by the official service contractor for the labor to complete such task.

11. EAC will fully cooperate with the official service contractor and will not interfere with the efficient utilization of labor.

12. It is the exhibitor’s responsibility to provide EAC with information pertaining to exhibit; i.e., utilities, service order forms, dates, hours, shipping instructions, rules and Guidelines, etc.

13. EAC’s must complete set up within the published hours. Requests to move in early or remain late on set up days must be made through show management.

14. Install and Dismantle companies are prohibited from setting up temporary work stations in the exhibit hall.

Failure to follow these guidelines could jeopardize an EAC’s ability to obtain proper authorization for installing, servicing, or dismantling an exhibitor’s booth.

Security
AORN contracts with Marshall Robinson & Associates, Inc. ("MRA") to provide general perimeter exhibit area surveillance, and MRA is authorized to enter Exhibitor’s exhibit at any time to perform its duties. Furnishing this service shall not be construed to be any assumption of obligation or duty by AORN or MRA with respect to protection of Exhibitor’s property, which shall at all times be the sole responsibility of Exhibitor. Exhibitor may hire additional security services directly from MRA, and a form for such use is included in the Exhibitor Service Manual. Neither AORN nor the Conference Facility is responsible for the safety or protection of person or property of Exhibitor or for the act or omission of any security personnel.

*These rules and regulations are subject to change. Please refer to the AORN Expo website under the Exhibitor Resource Center menu to ensure you have the most current version.

APPENDIX A, AORN Rules & Regulations

### AORN Expo Booth Exhibit Specifications

Please review the following booth specifications to ensure that your display meets the AORN Expo Exhibit Specifications. If your booth does not meet these specifications, you must submit a rendering of your display to Show Management for review.

For complete guidelines, please click here.

**Booth Equipment**
Standard AORN Expo Exhibits consist of a 10’ wide x 10’ deep Linear Booth set with 8’ high back drape and 3’ high side drape. All booths must be carpeted. Career Center and Government booths receive carpet as part of their booth package.

**Linear (in-line) Booth**

**Definition:** A Linear Booth has only one side exposed to an aisle and has at least one adjacent neighbor on either side of the booth. They are also called “in-line” booths.

No exhibit construction or signage may exceed 8’ in overall height. The maximum height of 8’ is permitted on the back 5’ section and a maximum height of 4’ is permitted on the front 5’ section. Please reference the diagram below for allowable configurations.

**Note:** When three or more Linear Booths are used as a single exhibit space, the 4’ height limitation is applied only to that portion of exhibit space which is within 10’ of an adjoining booth.

**Corner Booth** is a Linear Booth at the end of a series of Linear Booths that is exposed to aisles on two sides. All other guidelines for Linear Booths apply.

**Hanging Signage:** Hanging ceiling signs is *not* permitted in a Linear Booth.

**Perimeter Linear Booth**

**Definition:** A Perimeter Booth is a Linear Booth that backs to a wall of the exhibit facility rather than to another exhibit.

All guidelines for Linear Booths apply to Perimeter Booths except that the maximum back wall height allowed on the back 5’ section is 12’. Please reference the drawing below for allowable configurations.

**Hanging Signage:** Hanging ceiling signs is *not* permitted in a Perimeter Booth.
10' X 10' PERIMETER BOOTH
**Island Booth**

**Definition:** An Island Booth is any size booth exposed to aisles on all four sides of the booth with no adjacent neighbors. Island Booths are 20’ wide by 20’ deep or larger. The entire cubic content of the space may be used up to the maximum allowable height of 25’. Please reference the drawing below for allowable configurations.

**Height & Signage restrictions:** Hanging ceiling signs is permitted in all Island Booths, but may not exceed 25’ in overall height.

**Construction of perimeter walls:** Provide sufficient see-through areas so as not to block the view of the adjacent exhibits. AORN requires a 50% see-through effect, front to back and side to side, on the portion of the booth from the floor up to a minimum of 8’ in height, on each of the four sides (Side A, B, C &D) of the perimeter of the booth.

Example: In a 20’ x 20’ island you could only use 10’ of display wall on each of the four sides of the booth.

Island booths constructing perimeter walls must submit booth renderings to Show Management for approval prior to production. The deadline for submission of island booth elevation and blueprints is one month prior to the first day of Exhibit Hall move-in.

Any unfinished walls with exposed raw materials, wiring, plumbing, etc. are subject to review by Show Management. Should Show Management deem the backside of the booth “unsightly” and/or does not conform to the overall quality of the show, the exhibitor may be required to drape the backside of the booth at the exhibitor’s expense.
