Brought to you by THE premier Intelligence Associations

Jointly sponsored by **AFCEA International** and the **Intelligence and National Security Alliance**, the Intelligence & National Security Summit brings together senior leaders from the public, private and academic sectors across the intelligence and national security communities. The Summit will encourage a strategic dialogue about the issues of intelligence effectiveness, transparency and accountability.

The Premier Intelligence Event of the Year

The third annual **Intelligence & National Security Summit** will be held September 7–8, 2016, at the Walter E. Washington Convention Center in Washington, D.C. Hosted by the two leading intelligence professional associations — AFCEA International (AFCEA) and the Intelligence and National Security Alliance (INSA) — the summit is the premier gathering of senior decision makers from government, military, industry and academia. In its first two years the summit drew more than 3,000 attendees, exhibitors and journalists.

This two-day, unclassified summit will boast an impressive agenda again in 2016 with federal agency leaders and top policymakers sharing their assessments and priorities for U.S. intelligence. Breakout sessions previously have concentrated on innovation and emerging technologies, cyber intelligence and defense, and strategic policy issues.

With two years of audience and sponsorship growth behind it, the summit is positioned to become a significant platform for the Intelligence Community and its industry partners in 2016. Secure your exhibit space or event sponsorship today to be part of this signature event.

The 2015 Summit boasted over 1,500 attendees and exhibitors.

CORPORATE OPPORTUNITIES

HOSTED BY

AFCEA International

AFCEA International, established in 1946,

is a non-profit, non-partisan membership association serving its members by providing a forum for the ethical exchange of information and dedicated to increasing knowledge through the exploration of issues relevant to its members in the defense, homeland security and intelligence communities. It is the world's largest association serving intelligence professionals with over 33,000 individual members and over 1,600 corporate members.

Intelligence and National Security Alliance

The Intelligence and National Security Alliance (INSA) is the premier intelligence and national security organization that brings together the public, private and academic sectors to collaborate on the most challenging policy issues and solutions. As a non-profit, non-partisan, public-private organization, INSA's ultimate goal is to promote and recognize the highest standards within the national security and intelligence communities. INSA has 170 corporate members and several hundred individual members who are leaders and senior executives throughout government, the private sector and academia.
